

RTSSIGNS TAG & SIGN PRINTING

RTSSigns is UNFI's premium tag and sign program for in-store printing. Now offering upgraded design capabilities for your on-shelf marketing, these tags display more readable text, clearer descriptions, and customizable options. Plus, RTSSigns' user-friendly interface is efficient and streamlined to save you time.

Before:

After:

BENEFITS:

- Well-designed, impactful shelf-level communications to influence purchase decisions and drive sales
- Print all tags and signs for ALL items in your store at one time
- Add attributes to your tags, i.e., local, healthy, natural, organic, gluten-free, plant-based, etc.
- Bigger fonts sizes, clearer descriptions, and enhanced unit/measurement information
- Professional looking signs with personalization options
- Color printing available
- Accessible from any Chrome browser in your store

REQUIREMENTS:

- A computer with internet access
- Online access to UNFI pricing files
- Windows 7 or higher
- Google Chrome browser
- UNFI support printer (e.g., Lexmark MS700 series)
- Blank tag/sign stock and templates supported within RTSSigns and approved by UNFI
- An integrated POS system
(See reverse for current and upcoming integrations)
- Evaluation of pricing data compatibility by UNFI Retail Pricing

FAST FACTS

75%

of shopping decisions are made right in the store aisle.

Calling out product benefits on your tags and signs will increase shopper loyalty and set you apart from the competition.

TESTIMONIAL

“We’ve been very impressed with the RTSSigns program. It has offered us the opportunity to provide better product descriptions and the highlight the product attributes our customers are looking for on a shelf tag/sign. Our team is very satisfied.”

-Kowalski Companies
